

Innocuousness declaration

Dear Customer

Use of biological, chemical and potentially infectious substances within or outside equipment, as part of maintenance, repair-, calibration- and/or disposal may give rise to health risks to the operating technicians as well as risk of environmental contamination. In accordance with applicable national and international legal regulations (such as obligation of employers to protect employees or transportation safety obligation of the operator), potential hazard avoidance is mandatory. Before starting calibration, maintenance or repair, moving or decommissioning the equipment, and depending on the work to be carried out, the equipment may need to be decontaminated, disinfected and cleaned. We therefore request you to return this completed declaration to us before carrying out the required works.

Thank you for your cooperation.

Sincerely Yours
 Sysmex Suisse AG
